

# Expansion Unit DX517

**Brand:** Synology

**Product Code:** DX517

**Availability:** 12-18 Days

**Weight:** 3.91kg

**Dimensions:** 233.00mm x 248.00mm x 157.00mm

**Price:** 35,500.00EGP

## Short Description

Expansion Unit 5 bays DX517

## Description

### 5-bay 3.5"/2.5" SATA expansion

Easily add 5 additional drive bays to Synology DiskStation<sup>1</sup>. Supporting both 2.5" and 3.5" SATA drives, DX517 is a flexible solution supporting on-the-fly volume expansion or serving as a local backup destination.

### Online volume expansion

Managed from DiskStation Manager on the host NAS, the additional bays in the DX517 are immediately ready to be used once connected. On-the-fly volume expansion ensures that storage and services on the host are not interrupted during volume expansion.

### Hot-swappable drive tray design

The hot-swappable drive trays of DX517 allow easy drive installation and replacement without powering down the system. Screwless drive tray design reduces the time needed for system setup.

## Dedicated local backup solution

Synology DX517 can be used as a dedicated local backup solution for the Synology DiskStation. When created as a separate volume, the DX517 provides a great backup solution to its local hard disks in case of system failure.

### Specification

|                             |       |
|-----------------------------|-------|
| NAS                         |       |
| Drive Bays                  | 5     |
| Compatible Drive Type       | 3.5   |
